Mapleton Water Department

No water shall be turned on for use on or in any premise until a written application has been made and filed with the Water clerk of Mapleton, stating the purpose for which the water is to be used, along with a deposit amount regulated by Mapleton Village Code Section 13-2.

I, _____, do hereby make application for water and garbage service at the property located at _____ in the Village of Mapleton. The services shall be used for Residential or Business purposes.

Upon application for water service, all applicants will be required to pay a \$200.00 security deposit.

Upon application for garbage service, all applicants will be required to pay a \$25.00 security deposit.

Owner occupants of said property, will receive a refund after 24 months of continuous on-time payments (no late fees or penalties; no shut offs). At the time the Village is notified of cancellation of water/garbage service, a final bill will be generated. If a deposit remains on your account, it will be applied to your final bill. Any balance remaining will be due and payable. If there is a credit on your account after deposit has been applied, a refund will be made.

For non-owner occupants, until move out for renters of said property, the deposit will be held and refunded after the final bill is rendered and paid in full. The \$200.00 deposit will be applied toward the final bill only if the final bill is not paid within 20 days of the billing date on the bill. This is in accordance with amended Ordinance Chapter 8, Section 1-2:A. Owners and tenants will be jointly held responsible for unpaid balances.

Unpaid balances may result in a water lien being placed on the property and additional filing fees and legal fees will be incurred.

Per Ordinance 2022-05-11-01 All repairs for service pipes and laterals from the waterworks system (water mains) to the water meter, including repairs to the water meter, shall be made by and at the expense of the Village, excepting repairs to the transmitter located on top of the water meter, which repairs shall be made by the Village but at the expense of the property owner and any resident thereon, jointly and severally. Such expenses shall be billed to the property owner and/or resident residing on the property by the Village and reflected on the water bill. From the water meter to the property being served, all repairs and excavations shall be by and at the expense of the property owner. This provision is not intended to waive any right of the Village to seek recovery of any damages associated with damage to the waterworks system caused by the negligence or intentional acts of any person, including but not limited to, any resident, property owner or any other party responsible for such damage.

A \$2,500 fee is required when a new connection and tap into the water main is requested.

Bills for water service shall be rendered monthly and are due by the end of day on the 20th. They shall be delinquent on the 21st day of the month.
