**RE: New Contract Proposal**

Dear Mayor Bishop,

Area Disposal Service, Inc. is happy to present the following UPDATED proposal for a new solid waste collection contract with the Village of Mapleton.

Under our current agreement, AREA@ is charging \$11.25 per unit per month for weekly residential curbside garbage pickup.

In exchange for a new 5-year contract, AREA@ proposes to freeze the current \$11.25 rate for two more years. To demonstrate our desire to keep Mapleton's business, AREA@ will also provide **one free month of service** in exchange for a new contract. Mapleton households will also be able to request a second trash cart (65 gallons) from AREA@ for use at no charge.

The new agreement would also include an option to extend the contract at the Village's discretion an additional two years under the same or different terms. The following annual rates would apply:

January 1, 2020: \$11.25 per home/per month (*1st month free*)  
January 1, 2021: \$11.25 per home/per month  
January 1, 2022: \$11.50 per home/per month  
January 1, 2023: \$11.75 per home/per month  
January 1, 2024: \$12.00 per home/per month

All other elements of the current contract would remain in effect, including the two free roll-off used annual for the community cleanup. We appreciate your business and wish to continue our partnership with the Village of Mapleton.

Sincerely,

Eric Shangraw  
Municipal Marketing Manager  
PDC/AREA Disposal, Inc.
